

3 Courses

**Foundations of No-Code AI
for Real-World Applications**

**Build and Deploy Chatbots
and Recommender Systems**

**Automate Data Analysis and
BI with No-Code AI**

Jan 22, 2026

Tashen Kanaye

has successfully completed the online Specialization

Build AI Apps with No-Code Tools

This specialization teaches you how to design and deploy practical AI solutions without writing code. Across three beginner-friendly courses, you'll build automated data workflows, create chatbots and recommender systems, and develop predictive dashboards that support real business decisions. Designed for professionals in India, the U.S., and global markets, the program focuses on hands-on skills that improve efficiency, customer engagement, and data-driven performance using accessible no-code platforms.

LearnQuest's Instructor Network is comprised of professionals across hundreds of technology disciplines from around the world.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
